

Caring for aging parents by yourself could be scary. We partner with our families by providing medical and daily living help at home to their aging loved ones. Our partnerships build confidence, and lend peace-of-mind to our families, as well as our clients. Be brave, and take your first step toward starting home care. If your loved one doesn't yet need a lot of help, then start with our affordable, weekly nurse visit. Our nurse will check their vitals, general health, and accurately pack their medications. Then, if and when they need more help, we can expand and customize their services.

A home care partnership, peace-of-mind, *and* improved safety at home? There's nothing scary here, my friends. **Call our Intake Nurse at 1-800-HOMECARE (in MO) and 618-HOMECARE (in IL) to begin.**

Sincerely,

Mitch Waks, CEO & Owner

A Cyber Security Checklist and Nursing Job Opportunities

PART 1: OCTOBER PREVENTION SERIES

NOW HIRING! PART-TIME AND FULL-TIME RNs AND LPNs

We are growing, and as we do, we're seeking more amazing nurses for our home care

October includes many important prevention topics. Our three-part October Prevention Series shares tips that we've compiled into easy checklists. You can zip through them yourself, and with your aging parent, in just a few minutes. First up is National Cyber Security. [Learn what you can do to keep your family safe online.](#)

Watch for Home Eye Safety and Hearing Loss Prevention Tips, coming soon.

team.

Cooperative Hospice also has ongoing volunteer positions available.

Call our HR representative, Carla, directly at 314-772-8585 ext. 331, or [apply for employment and volunteer opportunities here](#).
