## About Us

As our senior population grows, the market is flooded with new, franchised home care companies. Who can you trust?

Cooperative Home Care celebrates our 40th year in 2026. We make it easy for you to understand everything about home care, which empowers you to make your best care decision.

There is no obligation when you call our Intake Nurse at 314-772-8585. In about ten minutes, we qualify you for both medical and non-medical care. We also share our Cooperative 360 model: one page, with everything you need to know.
