Full Circle Care

You've contacted us for help and we guarantee our process is 100% efficient.
Call 314-772-8585 for a 10-minute phone call with our Intake Nurse;
we empower you to understand and qualify for every type of home care service.
Don't pay for more than you need, and begin when you are ready.

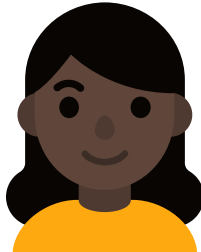

Home Care Options and How to Get Started

"Call
314-772-
8585 today!"

Home Health

Funded by both traditional Medicare and Managed Medicare. If you qualify for home health care, our nurse and therapists help you at home as prescribed by your doctor. Your doctor can prescribe home health care as long as they have seen you at an appointment within the last 90 days; if not you will need to schedule an appointment to ask about home health.

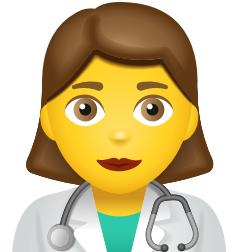

The GUIDE

Traditional Medicare recipients with dementia may qualify for Medicare's GUIDE program, which pays for 75 hours of home care per year. Our Intake Nurse can confirm if you have traditional or managed Medicare; the next step is a GUIDE assessment. Services begin in 8 to 30 days; you design your schedule. You can also combine other types of home care with GUIDE services.

Personal Care

For those who qualify, MoHealthNet/Medicaid's Personal Care Program includes basic and advanced personal care by trained caregivers, Consumer Directed Services provided by family members and/or friends, and nurse visits. Our Intake Nurse can confirm if you are currently enrolled in Medicaid; we can also provide a link to your online application if you do not have Medicaid and want to apply.

VA & Private Services

Private Services are funded through VA, self-pay and/or long-term care insurance. They fill the gap when one shows signs of needing help at home. We offer shorter shifts than other companies, so you are not paying for more than you need. Our free, no-obligation assessment takes less than an hour; begin services when you want.
